Volo

// OUR CREDO

We believe that where we work has a profound impact on how we work. After all, how a space looks, functions, and feels is directly related to its effectiveness.

Modular Walls are no exception, which is why Volo's expansive offering fulfills our commitment to giving teams more control than ever with added flexibility to make smart adjustments amidst changing needs - ultimately creating spaces for impactful and meaningful work.

- Pre-assembled Glass & Solid Panels
- Insert and Outsert Tile Options
- Base Electric and data

3 – Monolithic

Pre-assembled gypsum-based monolithic panels designed to replace drywall

- Pre-assembled Solid Panels
- Vinyl or Fabric finishes
- Easy power and data management
- Budget Drywall replacement

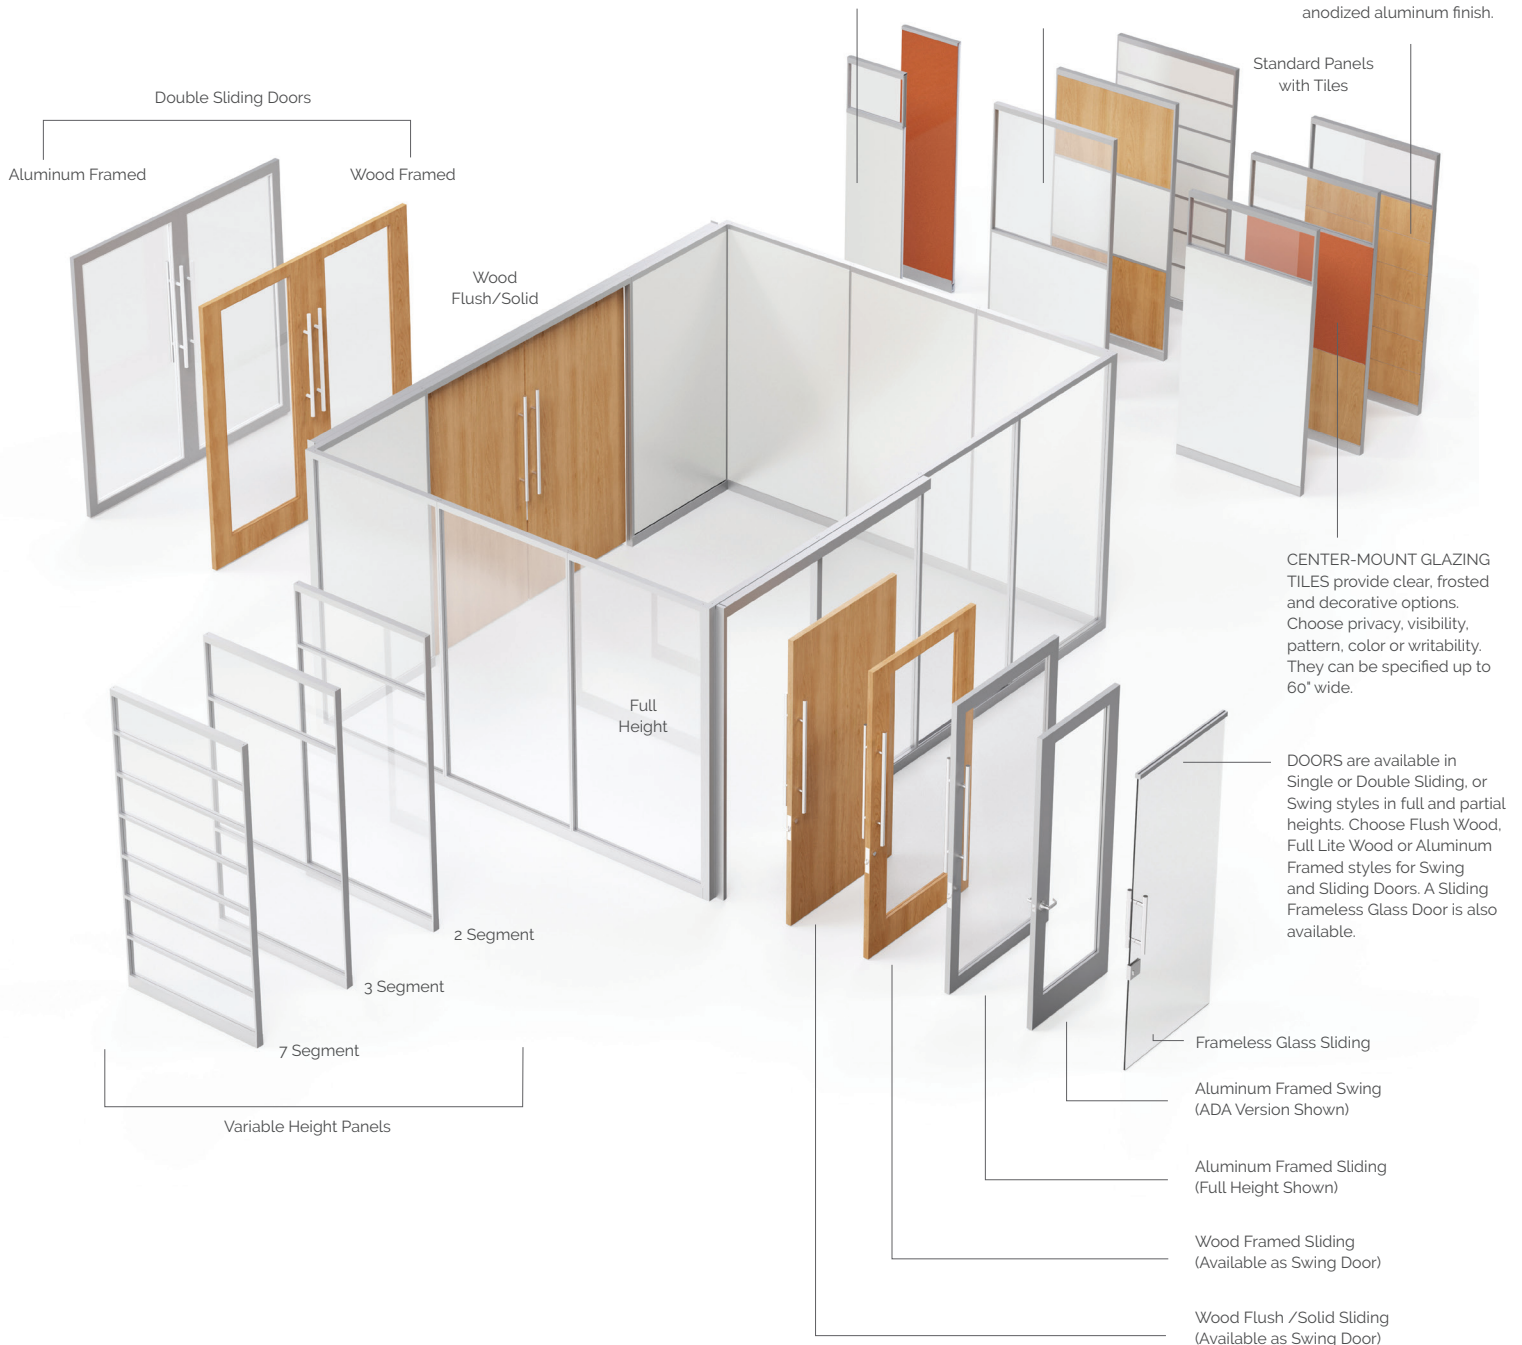

Visualize Your Volo

Evolve or reconfigure your space easily.

VOLO MONOLITHIC PANELS are available in 24" and 30" widths and can be specified from 72" up to 120" high in 1/4" increments. Optional glass stackers allow a maximum height of 12'. Any Fellowes fabric or vinyl can be specified on Volo Monolithic Panels.

PANEL SEGMENTATION allows up to 7 Tiles of identical or varied materials on each side of the panel. Outsert and Insert Tiles can blend for maximum aesthetic and functional versatility. Different tile configurations can be specified for each side of a panel.

PANEL FRAMES can be specified from 88" up to 120" high in 1/2" increments, and from 6" to 48" wide in 1/2" increments. Frame elements are available in any of Fellowes standard Systems paint colors or in an anodized aluminum finish.

Insert Tiles create an extra-slim profile, revealing aluminum frame elements for a contemporary aesthetic. Choose Vinyl, Laminate, Veneer and Tackable Tiles for functional and design flexibility.

Outsert Tiles are slightly proud of the frame, with a subtle 1/4" surrounding reveal. Choose from Laminate, Veneer, Glass Marker Board and colorful Back Painted Glass Tiles to meet your specific needs.

Surface Materials — Find images and details about the extensive offering of Volo surface materials at www.fellowes.com.

Design Options

Make a bold, graphic statement — the expansive range of aesthetic and functional design options makes it easy to do it all. For a full range of options please visit: www.fellowes.com/us/en/catalog/architectural-solutions/modular-walls/pg/volo

Applications for every need

Volo creates spaces with a range of visual and acoustic privacy to suit a spectrum of needs, from complete enclosure to total transparency.

Smarter for the planet, smarter for your business

Less Waste

Modular walls are constructed with up to 90% less waste than traditionally-framed walls. The majority of Volo components are made from aluminum, MDF, steel and glass, resulting in a wall system that is recyclable.

*Less Cost**

Designed to be rearranged, reconfigured, and reused for years to come. Capturing asset depreciation is a powerful cost-saving tool that can greatly reduce a business' tax obligations.

*Versus Traditional Construction.

Less Hassle

Volo is designed and engineered to perform and is backed by an industry-leading lifetime warranty.

Built to Last

End-to-End Service

When you partner with Fellowes, you are supported by fully-integrated design, planning, production, and installation teams – all working together to deliver extraordinary final results for EVERY indoor environment.
